COURSE 2D Art

Learning Activities:

- Students will develop clear, imaginative and coherent artistic intention, demonstrate a range and depth of creative-thinking behaviors, demonstrate the exploration of ideas to shape artistic intent through to a point of realization.
- Viewing activities with corresponding guided, open reflection and responding activities.
- Students will use mixed media, techniques, and processes to understand and apply visual elements and principles
- Viewing activities with corresponding guided, open reflection and responding activities.
- Synthesize and relate knowledge and personal experiences to make art.
- Students will utilize a variety of online research tools and resources to inform their process.
- Use technology and digital media strategically and capably.
- Students will respond to works of art through analysis and interpretation.
- Students will continuously examine, assess, and improve work.
- Engage in artist/teacher-directed and self-directed identification and exploration of media skills and techniques to accomplish a variety of 2D design solutions.
- Critically and objectively communicate responses to works of art applying visual art terminology.

Assessments

Formative:

- Participation in group discussion/activities
- Oral and written in-progress critiques

Summative:

- Art making final product assessed with rubric
- Final critique
- Physical and digital portfolio: Culminating assessment of final physical/digital portfolio of unit requirements are conducted at the end of a unit to determine degree of mastery or proficiency according to identified achievement target.

Benchmark:

- Students will create a presentation of their prior art experience and goals as an artist
- Written Critique assessment
