

Township of Ocean Board of Education

2020 – 2021 Goals

1. More effectively communicate with all stakeholders to ensure an equitable, safe and inclusive educational climate within the district and community specifically recognizing the changing pace of information and the evolving means by which people access information. Approve a new public relations position to create an outreach and engagement plan for the district specifically addressing under represented populations and a plan for more parent involvement.
2. Examine and evaluate school achievements, school district improvement and successes comparable year to year. Focus on whole students when evaluating district assessments, AP, SAT along with other achievements like extra-curricular, college retention, CTE enrollment, dual-credit enrollment and bi-literacy programs.
3. Foster policies and support administration to target recruiting practices for underrepresented populations in every category of employment by the following: Investigate new outlets to advertise positions to ensure a more racially balanced pool of candidates and add professional casting net for services.
4. Negotiate a successor agreement with the Township of Ocean Education Association (TOEA) that will meet the educational needs of the district beginning July 1, 2021.
5. Support all district committees and their efforts to make positive changes within the district. Areas of emphasis are social and emotional competencies health and safety and educational equity for the entire school community.

NOTE: Goal progress will be discussed by the Board of Education and the Administration after formal adoption quarterly at a regularly scheduled workshop meeting.
